

# TMR n280

A sophisticated solution in a compact package for growing businesses

- High quality digital printing
- Streamlined integrated scale
- PIN-protected access
- Up to 10 custom slogans
- Departmental Accounting

### Instant Stamps and Exact Rates

The TMR n280 is the perfect franking machine for up and coming businesses, offering sophisticated features in a compact package. No more queuing at the Post Office, guessing the correct postage or running out of stamps. The TMR n280 can be re-credited on-line with postage 24 hours a day, 365 days a year.

The TMR n280 comes loaded with all the Royal Mail UK inland and international postal rates, giving you the exact price for all its services.

The integrated digital weigh platform accurately sets the machine to the correct value so there's no risk of over or understamping. Calculating the correct postage is easy with our on-screen rate wizard.

### Easy to Use

Shortcut keys help you speed your mail processing for maximum ease-of-use. Envelopes up to 12 x 15" are easily handled and you can also process labels if you need to send parcels or thick envelopes. Analyse your postage expenditure, check funds and download postage to plan ahead.

### Professional Image

With the TMR n280, you'll enjoy a more professional image and free advertising. You can easily customise your mail message to include your company name, special greetings or marketing slogans.

Increase efficiency and make savings on postage

Authorised independent inspector and maintainer of franking machines

## Mailmark Franking

Mailmark technology applies an intelligent 2D barcode that helps track mailed items with extreme precision. Royal Mail guarantees that items sorted using Mailmark will always benefit from the cheapest tariff available. The system also provides immediate price updates, faster franking and routine tracking reports, superseding SMART enabled franking machines.

## Processing Speed

To help customers compare efficiency, Letter Processing speeds provide the number of standardised letters a machine is able to frank in one minute, with a reduced number for WOW enabled machines when running mixed mail. This rating is useful to know when scheduling mailing strategies and volume requirements.

## Envelope Messaging

To make the most of franked mail, you can turn every sent item into a powerful promotion, with your company logo and/or marketing message printed alongside the postage. With various pre-loaded options and bespoke settings, you can change the message by department, priority, season or offer, providing a professional finish without the need for printed stationery.

## Postage Reporting

With flexible reporting at your fingertips, monitoring and controlling postage expenses has never been easier. Save time and eliminate errors often seen with manual postage reconciliation, create spreadsheets and colourful graphs in minutes and track mail expenses and recoup costs through chargeback

## Online Connectivity

Connect with high speed LAN to enable receipt of postal rates, software updates, ink alerts and remote diagnostics.
