Please Note all specifications are variable and for guide only. Confirm specific machine details with your sales contact.

Customers have also chosen...

TMR fn40

With the TMR fn40 folder inserter, manual folding, inserting and sealing mail can now be done in minutes, instead of hours. This will mean you'll have more time to do all the other things that need to be accomplished in your office.

Please remember the environment when you go to print. TMR print using vegetable based inks on FSC Certified paper.

If you would like to find out more about our range of products and how The Mailing Room could benefit your organisation, please get in touch.

Accurate & Flexible Weighing Standard large integrated scale,

though if you need to process parcels up to 30 kg, the external weighing platform is made for you.

Large Feeding Platform

All sizes of envelopes are handled with this enhanced platform. You can also process labels if you need to send parcels or thick envelopes.

Improve Mail Impact

Choose from library of images or add your logo, strapline, marketing messages or slogans.

Manage Your Mail Online

Complimentary online service allows you to analyse your basic postage expenditure, with an option to upgrade your subscription to view your postal spend by tariff, department or date, giving you detailed reports to manage expenditure.

Give Yourself a Little Credit

As standard your franking machine will need to be in postage credit in order to allow day-to-day franking. This is based on your pre-agreed postal spend to be kept in your Credifon account, which is automatically updated by DD after any machine top-ups, to make sure you are always credit and ready to frank.

Alternatively, you can set up a credit account to pay in arrears with a pre-approved credit limit and up to 55 days interest free credit. Meaning you can download postage when you need it and pay in arrears to help improve your company's cash flow and increases efficiency. No more estimating the amount of money you need at the start of the month, only to run out unexpectedly.

Fees and credit charges may apply, ask for details.
