Powerful Performance

The TMR x30 offers small offices the most pragmatic choice for delivering effortless mailing and shipping operations. Don't let this compact design fool you — the x30 is extremely powerful

Accurate & Flexible Weighing

Standard 3kg integrated scale, though if you need to process parcels up to 35kg, an optional external weighing platform is available.

Versatile Feeding Platform

All sizes of envelopes can be handled and sealed with this enhanced platform with moistener, along with adhesive labels for parcels or bulky mail.

Coupled with SMART this complete suite offers a one-stop approach to processing, tracking, reporting and reconciling postage expenses for mail and parcels.

SMART Post & Parcel Technology

Shipping

Get **SMART**

Using **SMART** technology, the TMR x Series **shipping** application allows you to process parcels through Royal Mail quickly and easily, with free confirmation of delivery. Plus, the software means you can control **mailing** and ship from your desktop PC.

Users can set up specific **accounts**, allowing for greater level of granularity, easily produce informative **reports** and graphs to provide the details needed and safely **track** where your items are.

Shipping

- View rates and services from one screen. SMART will automatically rate shop to identify the lowest cost or fastest delivery method of processing parcels, saving time and money.
- Assign printing permissions to users outside of the mail centre with Desktop Print, providing user flexibility and decreasing mail centre workload.
- Establish potential cost saving opportunities, decrease the number of work steps to process items, and better organise multi-package shipments.

Mailing

- Quickly select the rate, seal envelopes and print discounted Mailmark postage.
- Large descriptive buttons and prompts make navigation a breeze.
- The Rate Wizard simplifies selecting the correct postal rate and class. With clear step-by-step instructions, the selection process has never been easier.

Accounting

- Postal account reporting tracks spending, providing the tools you need to stay on top of expenses.
- Chargeback accounting lets you bill vendors, customers or departments for mailing/shipping costs and allows you to recoup postage costs that would otherwise slip through the cracks.
- Supports: Budgets, handling charges and surcharges, as well as an unlimited number of accounts or departments.

Reporting

- Generate postage expense reports by mail class, weight break, pre-sort, ascending and descending register values, account/department, operator, cost centre, pre-defined or custom time periods – and more!
- Set it and forget it – SMART's report scheduler automatically runs and emails reports to a designated recipient or group based upon user-defined parameters

Tracking

- Free confirmation of delivery on all parcels at no extra cost. All tracked services ID's are stored for up to 13 months.
- Keep your customers informed by providing delivery email alerts each step of the way.
- Obtain consolidated views of your mail centre's activities to better manage mailing and shipping operations.

Leading Edge Technology. Simple Navigation. Fuelling stronger business communications. The TMR x Series with SMART will revolutionise your mail centre operations. If you would like more information, please get in touch.
